

Alter Ego

Comparaison de filtration

Alter Ego® utilise la technologie de filtration Revolve® pour le filtre à eau Alter Ego pour assurer la plus grande filtration par contaminant.

Voyez comment la technologie Revolve® se comporte face à la concurrence.

FOR TAP & OUTDOOR WATER FILTERS	Revolve™	Brita®	Bobble®
DISINFECTANT TESTING	Alter Ego		
Analyte	% Reduction	% Reduction	% Reduction
Chlorine	>99.99	Pourcentage non publié	Pourcentage non publié

Giardia	>99.9999	N C	N C
Bacteria & Virus	>99.9999	N C	N C
Cryptosporidium	>99.9999	N C	N C

Testing Information

All Revolve Filtration Technology testing results are obtained by using EPA, ANSI, and NSF protocols and methodologies. The above-reported test results represented in the Revolve column show composite data from the following laboratories: National Testing Laboratories, County of Los Angeles - Dept of Agriculture, CTL Environmental Laboratories, & BioVir Laboratories.

N | C = pas de déclaration

Pourcentage non-publié = La marque revendique la réduction des contaminants mais ne publie pas de pourcentage.
